MORRIS
(REGD.)

SPARE PARTS

Q Substitutes are cheaper only
to the man who sells them

THE specifications of materials used in the construction of Morris cars are the outcome of many years of extensive research work in the Morris Laboratories, whilst they have been proved by the experience gained during the millions of miles run by Morris cars since the inception of the Company.

The Morris Factories are equipped with the very best specialised machinery obtainable, so as to ensure the highest possible standard of perfection in the production of the component parts of Morris cars.

Genuine Morris Spare Parts are made on the same machines, of exactly the same materials, to precisely the same manufacturing limits, subjected to the same rigid tests, and under the same close supervision, as those originally fitted.

Morris owners can therefore be certain, when purchasing spare parts of Morris manufacture, that they will not only fit perfectly, but will also be in harmony with the associated components.

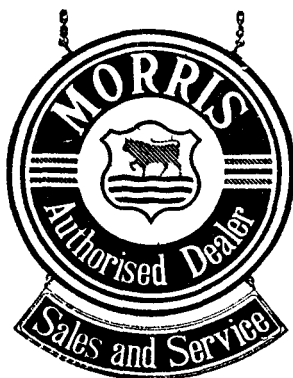

Replacement parts which are not of genuine Morris manufacture cannot be relied upon either in regard to material specification or accuracy of finish, and, in many instances, when fitted, have been the origin of serious breakdowns, with consequent heavy repair costs.

Morris owners are therefore urged, in their own interests, to insist emphatically upon genuine Morris spares.

Wherever you see this sign . . .

. . . you can be sure to obtain

GENUINE MORRIS SPARE PARTS

and

SPECIALISED MORRIS SERVICE

MORRIS UNIVERSAL SERVICE

STOCKS of genuine spare parts for Morris cars are carried by Morris Distributors and Dealers in every town of importance throughout the British Isles, and in Overseas markets.

Morris Technical Experts keep in continuous touch with all Morris Distributors and Dealers, who are equipped with tools specially designed to facilitate repairs and adjustments to Morris cars, and whose staffs are trained to give specialised Morris Service.

Morris Distributors and Dealers all agree to carry out repairs and adjustments in accordance with the Factory standardised charges.

For the convenience of Morris owners, we give herein an abbreviated Price List of such parts as are in more common demand for repair and maintenance work. Whilst every endeavour is made to stabilise prices, they are subject to alteration if conditions necessitate.

A full comprehensive Parts Price List with illustrations may be had on application at a nominal charge of 2s. 6d. plus postage.

The prices of Morris Spare Parts are subject to a percentage increase in Overseas markets to cover freight, insurance, duty, etc.

For prompt and efficient service, consult the nearest Morris Distributor or Dealer.

In any case of difficulty or doubt write direct to the Company.

Morris built the car—let Morris Experts maintain its reliability.

INSTRUCTIONS FOR ORDERING PARTS

In order to ensure prompt and correct execution of orders the following instructions should be carefully adhered to:—

Always state :

- (a) Model.
- (b) Chassis and Engine Numbers.
- (c) Part Number and Description.
- (d) Quantity of each part required.
- (e) Definite forwarding instructions, i.e. Air, Post, Passenger, Goods, C.O.D., etc.
- (f) Address to which goods are to be dispatched, and home address.

When telegraphing, write in words the quantity of each part required, and use the code word for description of part, in addition to the part number.

In cases where there is any doubt, send pattern of the part required.

Claims under the Guarantee should be dealt with through a Morris Distributor or Dealer.
